

Civmec Construction and Engineering is an integrated, multi-disciplinary construction and engineering services provider to the Oil & Gas, Metals & Minerals, infrastructure and Marine & Defence sectors.

Civmec is committed to maintaining an effective security management program in order to protect personnel, assets, information, integrity and reputation from potential threats.

To accomplish this, Civmec will:

- Implement continual improvement initiatives, including security risk assessments and risk treatment strategies.
- Establish, achieve and maintain sound and responsible protective security practices.
- Ensure the protection of personnel, physical assets and information in accordance with the requirements of Australian Government Protective Security Policy Framework (PSPF).
- Maintain membership of the Defence Industry Security Program (DISP), by following the intent of the Defence Security Principles Framework (DSPF).
- Promote an organisational culture that is committed to the protection of personnel, physical assets and information by effective communication of the security plan, associated procedures and this policy.
- Conduct security exercises, drills and awareness training.
- Ensure all employees and contractors understand the needs and responsibilities of security management.
- Provide a safe and secure working environment for employees and contractors.
